Study at an innovative university that's as bold and ambitious as you are

Join a dynamic, collaborative, and diverse postgraduate community that brings together students and researchers from across the globe.

Access state-of-the-art facilities in the heart of London, where one of the world's leading centres of business, technology, and culture becomes an extension of your learning and professional development.

Be part of an engaged academic environment where postgraduate students contribute, collaborate, and excel.

Broaden your horizons and strengthen your expertise – not only through your subject, but also through the perspectives you encounter, the networks you build, and the opportunities you pursue on campus and beyond.

Real-world experience

Learning through experience is at the heart of our approach. As a postgraduate student, you'll engage with projects and challenges that deliver real-world impact, building on and extending your academic expertise.

Our industry partners – from innovative startups to leading multinationals – provide valuable opportunities to apply your knowledge in professional settings. These experiences not only enhance your learning but also give you a competitive edge, preparing you to step confidently into the next stage of your career.

Explore new directions

Ready for a change of path? Many of our master's programmes are designed as conversion degrees, giving you the opportunity to step into a new field without needing previous experience. You'll build the knowledge and skills to advance your ambitions and take your career in a new direction.

Flexibility that works for you

Choose the mode of study that suits your life: full-time over one year, or part-time across two. Whichever route you take, you'll graduate with a powerful combination of critical thinking, technical knowledge, communication, and practical skills that open doors to opportunities across a wide range of industries.

Part-time study also gives you the freedom to balance work or other commitments while taking the next step in your academic journey.

Support at every step

At postgraduate level, tailored guidance is essential. Our small class sizes ensure you're part of a close-knit learning community where your voice is heard and your contributions matter. You'll benefit from personalised support from expert faculty and dedicated student services, as well as one-to-one access to academic mentors and career advisers who are committed to helping you achieve your professional and research goals.

“Supervision has been rich and rewarding. Professors are truly interested in the development of every student, giving constructive and personalised feedback and guidance.”

Sushant, MSc AI & Technology Leadership

DID YOU KNOW?

Master's classes are typically small, ranging from 5 to 40 students depending on the course and cohort. Students also benefit from one-to-one supervision for their dissertation or final project.

Learning through experience

Transform classroom learning into professional impact

Enhance your expertise by engaging with real-world challenges both inside and outside the classroom. You'll benefit from advanced academic teaching grounded in practical application – through site visits, guest lectures from leading practitioners, in-depth case studies, and opportunities to collaborate on cutting-edge research projects led by world-class academics.

You'll also apply your knowledge to address live briefs from external partners, ranging from multinational corporations to innovative startups, delivering insights and solutions that make a real impact.

Along the way, you'll develop the high-level skills essential for postgraduate success – critical analysis, collaboration, creative problem-solving, and adaptability – while also building your professional network, confidence, and career prospects.

Impact challenges & industry bootcamps

As a postgraduate student, you'll gain practical experience that directly strengthens your professional profile.

- **Impact Challenges** – collaborate on real-world projects, applying advanced knowledge to create evidence-based solutions that organisations can put into practice
- **Industry Bootcamps** – take part in intensive training, delivered and accredited by sector partners, to gain in-demand skills, insider insights, and industry-recognised credentials that set you apart in a competitive job market

Discover more ways to learn through experience and enhance your employability at nulondon.info/experiential-learning

“The university's strong links to industry, international network, and emphasis on applied learning made it the right environment to advance both my knowledge, future research and professional journey.”

Rajarajachozhan, MSc AI & Computer Science

Your global gateway

Be part of a unique global campus network, linking staff and students across campuses in London, the USA and Canada.

This international reach provides Northeastern University London students with cross-border connections that spark new ideas, open new doors and enrich our research and study programmes.

Through our global network of campuses, industry partnerships, and alumni, you'll engage in rigorous postgraduate study enriched by real-world application.

This international perspective will equip you with the advanced knowledge, professional experience, and cross-cultural insights needed to thrive as a global leader and make a meaningful impact in your field and beyond.

Global network

With access to Northeastern's worldwide network – featuring employer partners and 350,000 alumni across the world – you'll be plugged directly into a professional community ready to support your ambitions.

DID YOU KNOW?

Northeastern University's network of 13 campuses and institutes across the UK, USA and Canada provides students and graduates with international networking and further study opportunities.

Set in the heart of London, our state-of-the-art campus buildings put you right at the centre of the action in this vibrant global city.

DID YOU KNOW?

London is regularly ranked as one of the best student cities in the world, scoring highly on its diverse student population, friendliness, sustainability, and employment opportunities

Your campus

Devon House

With its riverside setting at St Katharine Docks on London's only leisure marina, Devon House is a contemporary and tranquil oasis where you can study in inspiring surroundings.

Yet just a few minutes' walk away, you'll find some of the city's most popular historic sites, including the Tower of London and Tower Bridge.

With high-tech classrooms, quiet study zones, seminar and tutorial rooms, meeting pods, recreational space plus tea and coffee points, Devon House has everything you'll need to thrive.

Your campus

One Portsoken

Set on the edge of the financial district, One Portsoken offers a 360-degree view of the London skyline and many iconic landmarks.

One Portsoken boasts world-class labs, workshops and a makerspace.

Our modern facilities offer everything you'll need, with quiet study zones, meeting pods, seminar and tutorial rooms, high-tech classrooms plus tea and coffee points.

Flexibility that works for you

At Northeastern University London, we know that postgraduate study has to fit around real life.

Flexible study options

Full-time – complete your degree in one year and fast-track your career.

Part-time – spread your studies over two years, balancing learning with work, family, or other commitments.

Our part-time programmes are designed for working professionals and those with busy lives. A carefully structured timetable maximises your learning while leaving much of the week free for employment, independent study, or personal responsibilities. This format allows you to advance your academic journey without putting your career or commitments on hold.

Flexible, professional, and designed for balance

Our London campus at Tower Bridge and the City provide everything you need to study effectively while managing your schedule. With excellent transport links just minutes away, modern workspaces, quiet study areas, high-speed Wi-Fi, secure lockers, bike storage, charging stations, and extended opening hours, you can fit study around your life with ease.

“Taking this programme towards the latter part of my thirty-year career in Financial Markets gave me the flexibility to fit around my existing commitments to both part-time work and family.”

Paul (part-time), MA Philosophy & AI

Commuter students

World-class education without the cost of relocation

You don't have to choose between academic excellence and staying close to home. With our campus at St Katharine Docks and in the City, plus excellent transport links, our location works whether you're studying full-time or balancing your degree with work and other commitments.

Commuter students now make up much of the UK's university population. Here, you'll join a broad community of students, some living at home, others from across the UK and overseas who've chosen London as their study destination. On campus you'll find opportunities to connect, take part in activities, access support, and build professional networks.

Our campus is built for commuters, with secure lockers, quiet study areas, showers, food preparation spaces, phone charging stations, bike storage, and extended hours (8am–9:30pm). Nearby supermarkets, gyms, cafés and sports centres make it easy to fit study around your lifestyle.

Flexible online study

Our fully online MA Contemporary Creative Writing is designed for flexibility, letting you study at your own pace and from wherever in the world you find yourself.

Join a global community of writers from around the world, bringing diverse voices and perspectives that will challenge and enrich your craft. Through collaborative learning – from forums and interactive tools to small-group workshops and live webinars – you'll connect, share ideas, and grow in confidence. With personalised support from published authors and experienced tutors, you'll benefit from regular, tailored feedback as you develop your skills and expand your creative networks.

“The MA Contemporary Creative Writing programme was exactly what I was looking for in a professional writing qualification.

The regular feedback from both lecturers and classmates has helped me hone my writing. The programme encourages you to think deeply about every word you write.”

Zeyad, MA Contemporary Creative Writing

Support for postgraduate students

Beginning postgraduate study is an exciting step in your academic and professional journey, but we also understand that it can feel challenging at times.

Feeling confident about where to find advice and support is key to your success, and at Northeastern University London, we're here to guide you throughout your time with us.

Your wellbeing is a top priority. Our student support services are designed to help you maintain a healthy balance between rigorous study, work commitments, and personal life. Whether you're returning to study after time in the workplace or continuing directly from undergraduate study, you'll find tailored support available whenever you need it.

In fact, we offer support for every aspect of university life, including:

- academic and study support
- disability and learning support
- careers advice
- mental health and wellbeing
- financial advice

With this comprehensive network of support, you can focus on achieving your academic and professional goals, knowing that expert advice and guidance are always available.

Specialist career support

Your adviser will work with you to:

- map out the experience and skills needed to progress in your chosen field
- identify prospective employers and strengthen your professional networking strategies
- refine CVs, cover letters, and professional profiles to showcase your expertise and achievements

Alongside personalised one-to-one guidance, you'll join career workshops on branding, applications, interviews, and networking. Guest speakers from diverse sectors will share insights, giving you direct exposure to industry expectations and opportunities.

Advancing your career

Postgraduate study is an investment in your future, and we're here to help you make the most of it.

From the day you join us, our careers and employability team will support you in refining your goals, building your professional profile, and preparing for the opportunities that come after graduation.

You'll work closely with a dedicated careers adviser who will take the time to understand your aspirations. Whether you're aiming to progress in your current field, pivot into a new sector, or explore academic and research pathways, we'll provide the guidance and resources you need to succeed.

Northeastern's Global Network

With employer partners across the globe, 350,000+ alumni worldwide, and strong links with leading organisations, you'll start building valuable connections well before graduation. Combined with our emphasis on experiential learning, you'll graduate able to demonstrate real-world impact – helping you stand out and take the next step in your career with confidence.

DID YOU KNOW?

All our postgraduate students have access to **Blackbullion**, a financial wellbeing platform designed to support smarter budgeting and financial planning, helping you manage living costs and make informed decisions throughout your studies.

For detailed programme information please see individual degree pages on our website nulondon.info/masters-degrees

This document was produced in March 2026, and contains information on programmes and services Northeastern University London intends to offer to students starting university between September 2026 and January 2027. Every effort has been made to ensure the information is accurate at the time of publication. For the most up-to-date information before you apply for a place and before accepting your offer, and regularly thereafter, please visit nulondon.ac.uk to check for any changes in information. For full terms and conditions visit nulondon.ac.uk/terms-and-conditions

International students

At Northeastern University London, we're proud of our diverse community, with students from across the globe.

Their experiences and perspectives make our campus a dynamic place to learn and grow. And with London as your backdrop, you'll be studying in one of the world's most vibrant cities.

We know applying to study abroad can feel overwhelming, but our team is here to support you every step of the way – both before you get to the UK and settling in once you arrive.

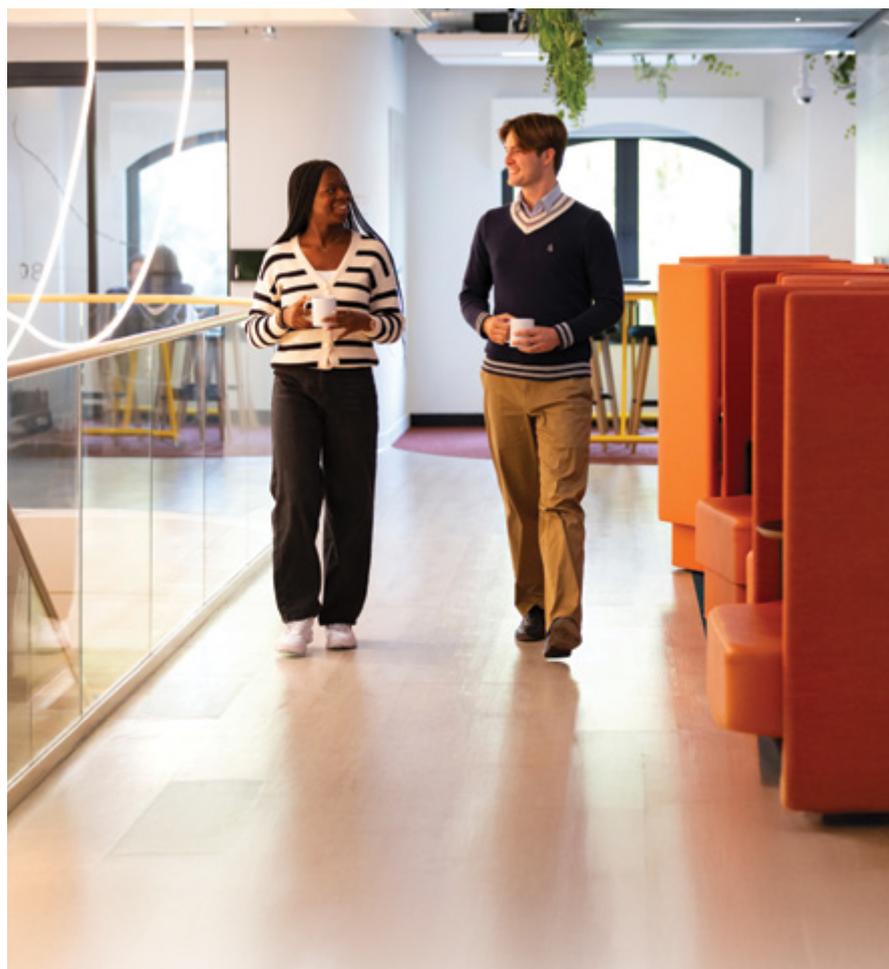

Student visas

If you're coming from outside the UK, you may need a student visa. Northeastern University London is licensed by the UK government to sponsor visas, and our dedicated team will guide you through the process.

Graduate student visa

Graduates of Northeastern University London are eligible to apply for the graduate route visa.

From 1 January 2027 successful graduate route visa applications will be granted permission to stay in the UK for 18 months to work, or look for work after finishing their studies.

ALMOST 100 countries – the number of nationalities represented among our staff and students.

London living

It's hard to imagine a more inspiring place to pursue postgraduate study than London, one of the most dynamic and diverse cities in the world.

Recognised as the beating heart of Europe, the capital is a global hub for technology, finance, research, and innovation, where centuries of rich history meet the cutting-edge ideas shaping tomorrow.

From world-class libraries and museums to leading research centres and cultural institutions, London offers unrivalled resources to enrich your academic journey.

Beyond your studies, the city provides countless opportunities to expand your horizons – whether through professional networking, international conferences, or exploring its vibrant arts, theatre, and sporting scenes.

With many of the world's top employers and organisations just a short journey away, London gives you direct access to invaluable real-world experience, career opportunities, and professional connections that will empower your future beyond the classroom.

The campus facilities are excellent, while the location and external views are exceptional."

You can expect a university experience that's enriching, stimulating, and full of opportunities for growth and discovery.

DID YOU KNOW?

Our students are known as "huskies" after the university mascot, a Siberian Husky. You'll see references to huskies in our sports teams, our student activities and socials.

Student community

At Northeastern University London, postgraduate study is about more than academic achievement. It's about becoming part of a community where you can grow personally and professionally, connect with peers from around the world, and build experiences that enrich both your studies and your life.

A diverse, dynamic community

You'll join a truly international cohort where every background is valued, and every perspective contributes to the learning environment. With students from a wide range of nationalities, cultures, and professional experiences, the community is a place to share ideas, expand your worldview, and create meaningful connections that last well beyond your studies.

Events and networking

Our busy calendar of events ensures there's always something happening – on campus, in student accommodation, or across London. From professional development workshops and guest lectures by industry experts to cultural celebrations, film screenings, and writing circles, you'll find opportunities to both relax and grow. Networking events and thought-provoking talks also give you the chance to engage in stimulating discussions on topics spanning science, technology, philosophy, and beyond.

Clubs and societies

Whether you're looking to extend your professional network, discover new interests, or simply unwind, our student-led clubs and societies offer plenty of ways to get involved. From academic and career-focused groups to creative and cultural societies, you'll find communities that align with your passions.

For those who enjoy sport and wellbeing activities, there are student-led groups offering everything from running and yoga to football, basketball, and bouldering. London itself also provides countless opportunities to join local clubs, leagues, and fitness communities at every level.

nulondon.info/student-life

“ Student life at NU London is intellectually engaging and socially well-rounded. Events like guest lectures, industry panels, and workshops are frequent and thoughtfully curated.”

Student, MA Philosophy & AI

Where you'll live

Make yourself at home in London

Finding the right place to live is an important part of your postgraduate experience.

Our accommodation team is here to support you with advice on housing options, locations, budgets and rental agreements.

Purpose-built student accommodation (PBSA)

Purpose-built student accommodation offers modern, hassle-free living designed for students. With Wi-Fi, utilities, furniture and amenities included in a single monthly cost, PBSA provides a convenient and straightforward option.

You can choose from ensuite rooms with shared living spaces or fully self-contained studios, depending on your lifestyle and budget. Purpose-designed study areas, social spaces and gyms help you balance academic focus with community life.

Our accommodation team can share a curated list of PBSA options, with clear details on location, travel time to campus and price points.

Private rentals

Private renting offers greater independence and flexibility, allowing you to choose your location, housemates and living style. Shared rentals can offer excellent value and more space, while helping you develop practical skills such as budgeting and managing contracts.

We provide guidance to help you navigate the London rental market with confidence.

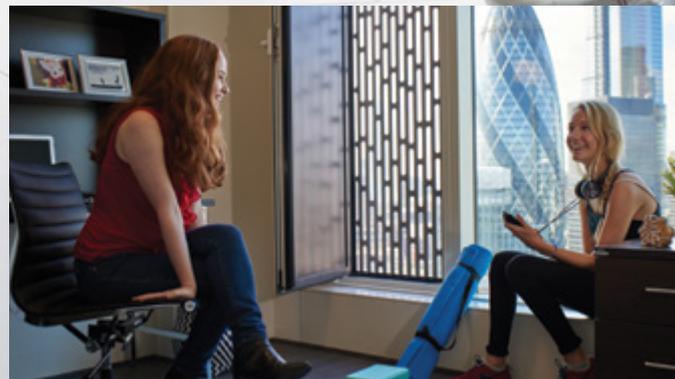

Living at home

Living at home can be a cost-effective option, with excellent transport links to campus making commuting straightforward. You'll still have full access to campus facilities, study spaces and student events.

We're here to help

Up-to-date accommodation information is available at

nulondon.info/accommodation

Fees and funding

Home tuition fees

You'll be classed as a home student for tuition fees if you are a UK/Irish national or permanent resident in the UK or Ireland for the last three years.

Postgraduate loans

For master's study, students normally living in England – including EU, EEA, and Swiss passport holders – may be eligible for a UK Government Postgraduate Loan (PGL) of up to £12,858.

- the loan can be used for tuition fees, living costs, or other study expenses.
- students domiciled in Wales, Scotland, or Northern Ireland may have different loan arrangements.
- for the latest details, visit gov.uk/masters-loan

Scholarships

Northeastern University London offers a range of generous scholarships for master's students.

For more information please see individual degree pages on our website. nulondon.info/masters-degrees

Chevening Scholarships

Chevening Scholarships are the UK government's global scholarship programme, offering fully-funded scholarships to emerging leaders all over the world to pursue a master's degree programme in the UK.

For more information visit www.chevening.org/scholarships

Sallie Mae

The University is recognised by Sallie Mae, the largest private student loan provider in the United States, making students eligible for its 'Smart Option' Student Loan. While we are happy to work with other lenders where possible, it's important to confirm that they offer loans for study at overseas institutions. Sallie Mae is one of the few US lenders that does.

Master's tuition fee payment plans

We offer the option to spread the cost of your tuition fees via an interest-free payment instalment plan, allowing you to pay in 10 equal instalments per year.

Alumni discount

Northeastern University alumni are entitled to a 20% fee discount.

Please note: scholarships cannot be combined with the alumni discount.

Acceptance deposits

An acceptance deposit of £500 for home and online students and £3,000 for international students is required.

This deposit will be offset against your first term's fees.

For international students who require a UK student visa to study at Northeastern University London, the deposit must be paid before we can initiate the Confirmation of Acceptance for Studies (CAS) process.

All information is correct at the time of publication, but may be subject to changes in UK government funding policy.

Entry requirements

Academic qualifications

We typically make offers to applicants who hold a UK undergraduate degree with at least a second-class (2:2) honours (or international equivalent).

Each application is reviewed on an individual basis and assessed through the application form, reference, and personal statement.

Professional experience

We also welcome applications from mature students and professionals who may have been out of formal education but can demonstrate relevant professional experience or equivalent qualifications.

English language requirements

If English is not your first language, you will need to demonstrate proficiency in English in order to study with us.

For detailed English language requirements, please refer to the entry requirements section on the relevant degree programme page of our website.

For a full list of accepted English language qualifications, please see our entry requirements page.

nulondon.info/entry-requirements

How to apply

1. Choose your degree

Explore our postgraduate programmes and find the right degree to match your interests and career goals.

2. Have questions?

Our dedicated postgraduate team is here to support you at every step.

Email us at masters.study@nulondon.ac.uk

Call us on **+44 (0)20 7637 4550**

3. Submit your application

Apply online here nulondon.info/apply-masters – it only takes a few minutes to get started.

4. Application review

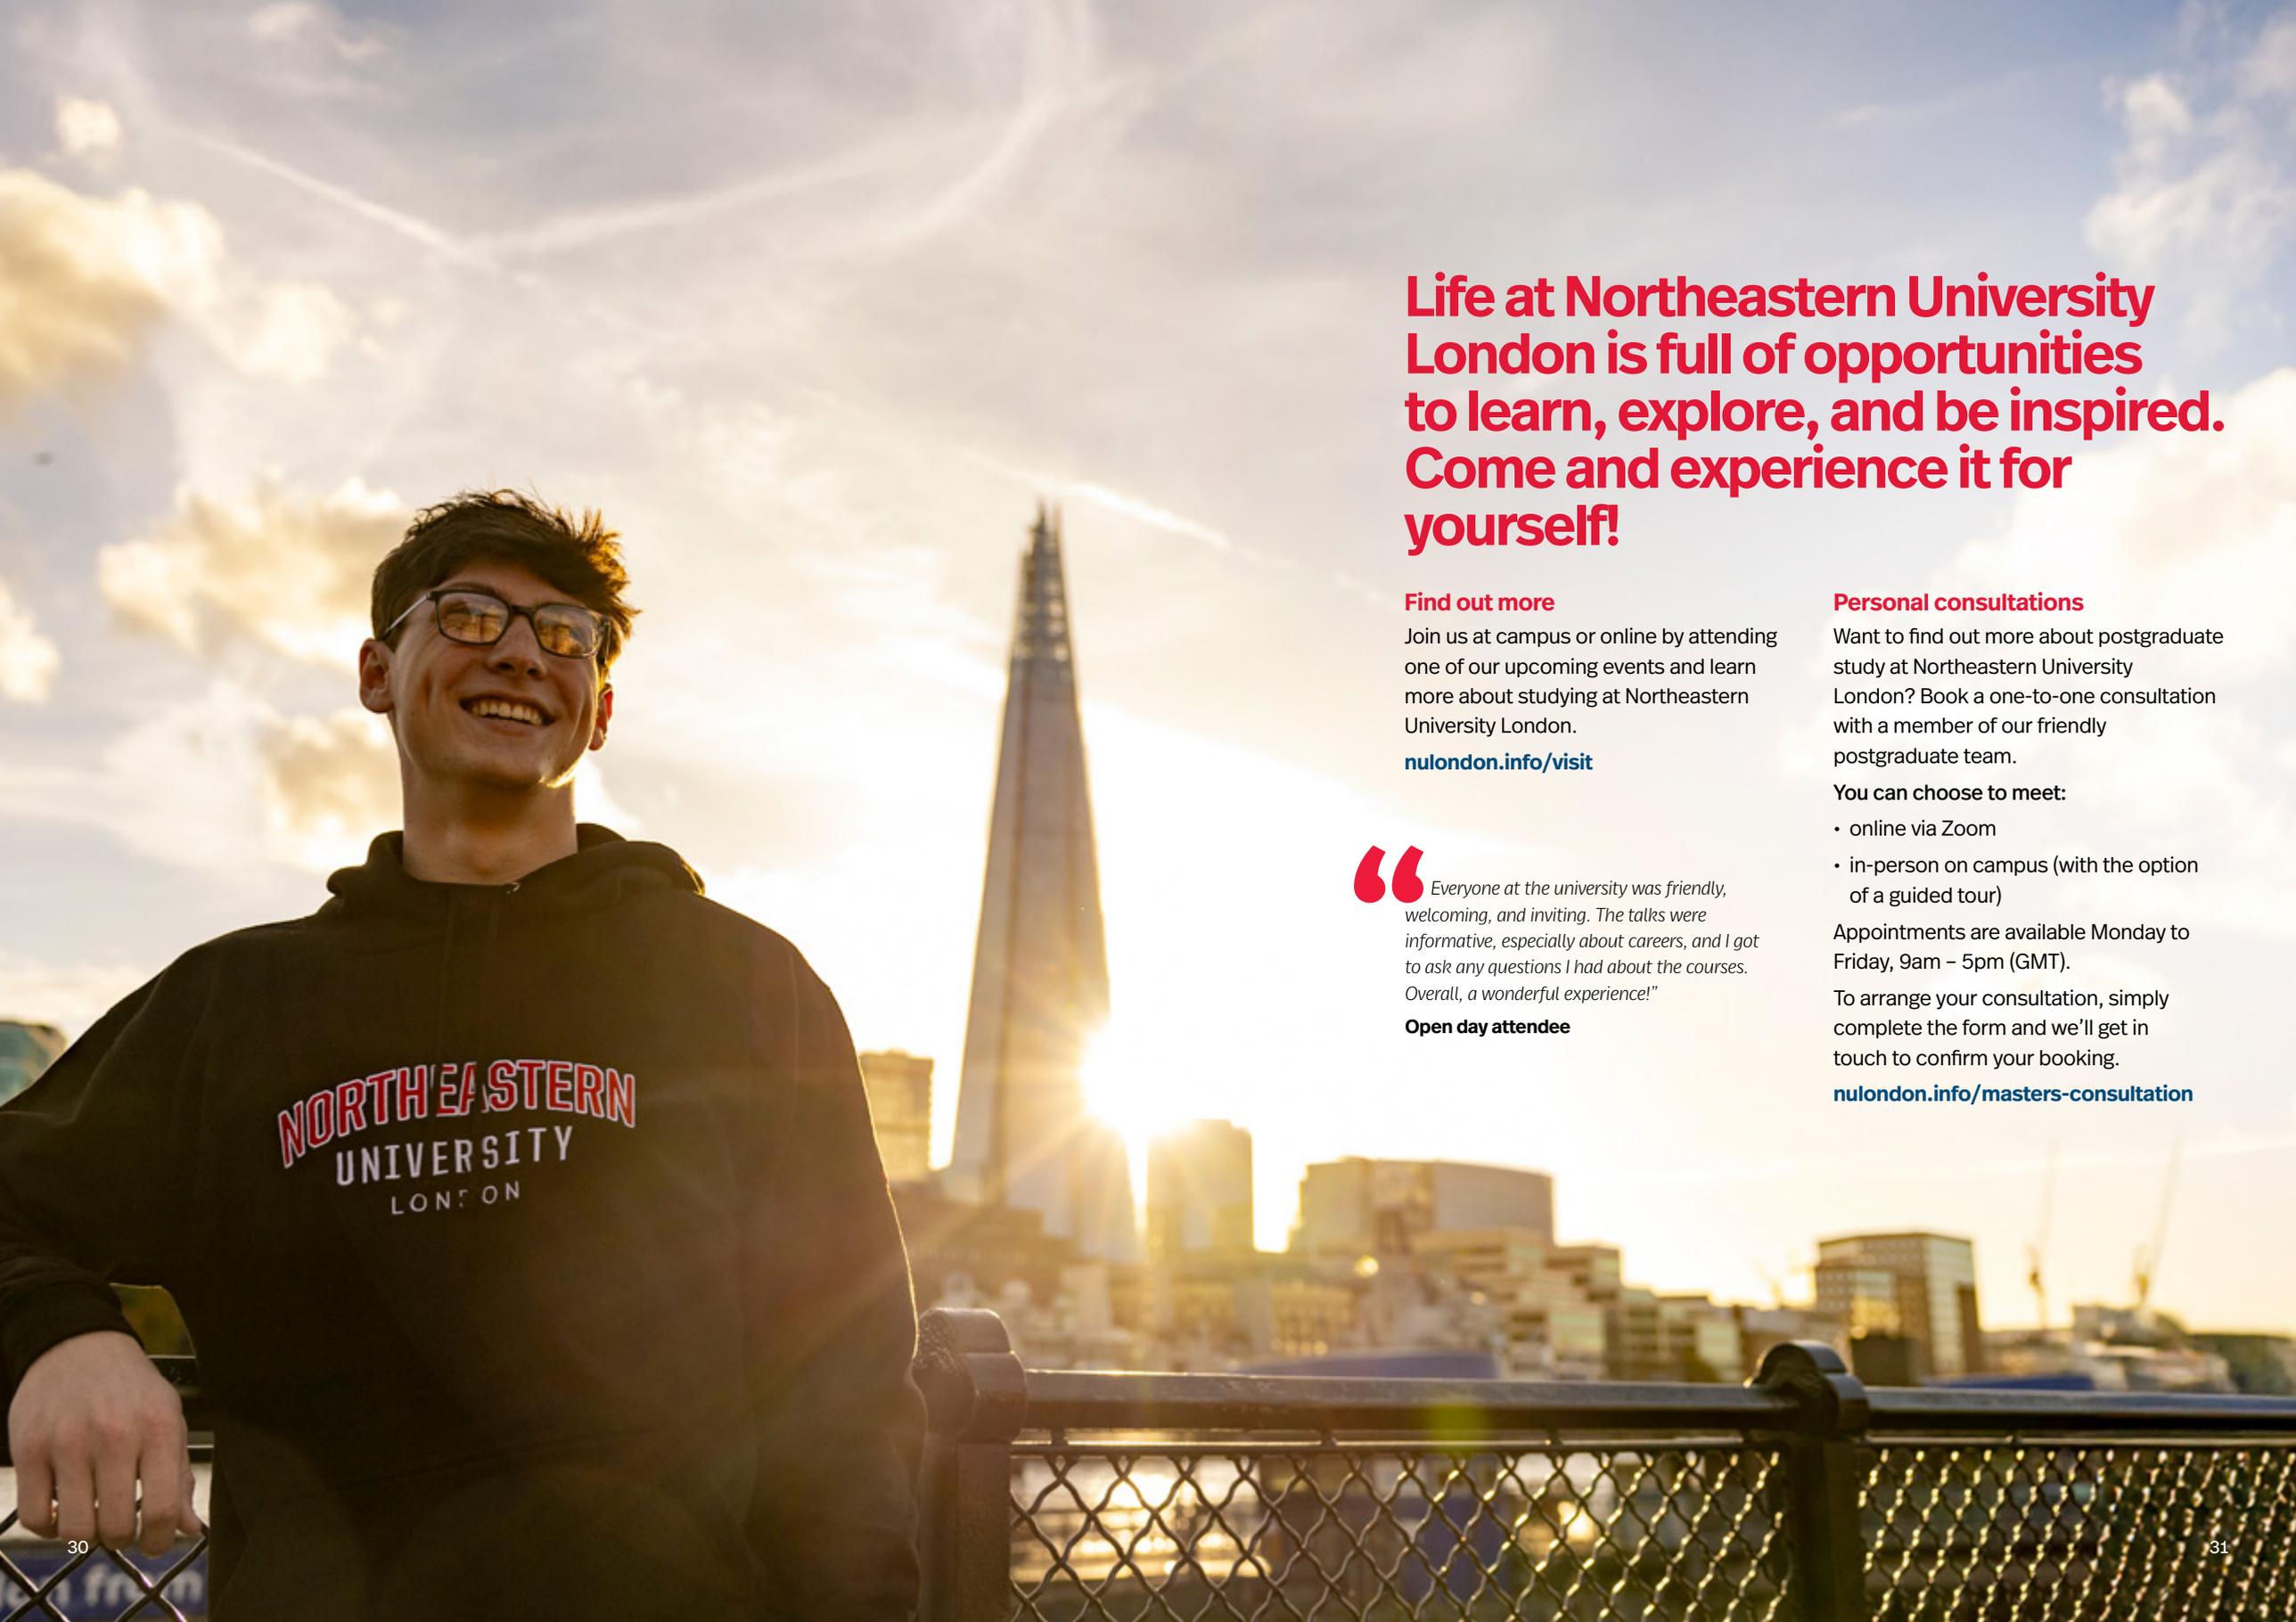

Our admissions team will carefully consider your application.

5. Receive your offer

If successful, you'll receive your offer by email along with information to take you through the next steps.

“The teaching quality at Northeastern University London is excellent – lecturers are supportive, knowledgeable, and approachable. I especially appreciate the focus on critical thinking and working with current tools and technologies.”

Dominic, MSc AI & Computer Science
